to bury the heritage of the manuscripts and strive to publish, preserve and drag it from dark into light to expand the horizons of mind these productions target; the soul that engraves the letters of knowledge and science slumbers in peace and runs in sincerity with them to be at the hand today as fresh and fruitful.

Such a stance summons all the incharges , persons and foundations, to give much shrifts to persevere the authenticated heritage of civilization on the scale of rehabilitation , duplication, indexation and verification.

As such , dear readers, today the Khazana journal, with the second edition, juxtaposes the souls larded with responsibility of the present generation experts in the manuscript heritage to invite your quills to quench the thirst and extenuate the despondency of the researchers.

May Allah buttress us and you to keep us steadfast on the road . It is He, the best Paragon and the best Succour-Granter, thanks be to Him to the last.

*In The Name Of Allah  
Most Compassionate Most Merciful*

***Edition word***

***Editor-in-chief***

Thanks be to Allah, One and the only One, peace be upon our messenger and beloved Muhammad, most entrusted to His secrets and most chosen, and his immaculate progeny.

Now

Our Islamic nation , beyond frontiers, cuddles so great monoliths of sublimity and development , privileged with deep-rooted heritage of genuine civilization, brilliant and preponderant, though such a civilization confronted dim eras , it takes hold of its past to pave the way to the present and the future in all ages, whose scientists never cease writing and inventing . Thus the nation grows prolific in the epistemic and scientific production to enlighten the world regardless of race, colour and language, for truth it is the best nation evolved for mankind, whose pillars , scientists and thinkers, exert themselves, time and efforts, to transpire knowledge in authenticated productions wreathed with prominent minds serving man and community .

What we have today from the heritage of the epistemic manuscripts is scattered shards of their real past production: many and so many calamities prevailed to destroy such a heritage, may these calamities be perished ! The same calamities of the past come to the fore, in the present, to vandalize the legacy of the fathers and grandfathers ; if breathing, they would have been crushed to death in agony and rue.

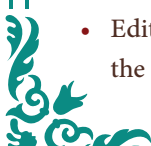

For such reasons and other rationales , we are to perceive the challenge

fidential assessment of its validity for publication, and shall not be returned to its owners, whether accepted for publication or not, according to the following regulations::

1. The researcher or reviewer will be informed of delivering the posted material to be published within a period may not exceed the maximum of two weeks.
2. The researchers should be reminded of the publication acceptance of the editorial board within a period may not exceed the maximum of two months.
3. The pieces of research, whose evaluators realize that it should be amended or be added to, will be returned to their writers in order to be organized accurately before publication.
4. The researchers will be informed if their pieces of research are rejected without mentioning the reasons of rejection.
5. Every researcher will be given one copy of the issue in which his research is published, with three separate pieces of research from the same published material and a reward, as well.

• ***The journal considers the following priorities in publication:***

1. The date of receiving the research by the editor-in-chief.
  2. The date of presenting the revised pieces of research.
  3. The variety of the research materials as far as possible.
- The published pieces of research express the opinions of their writers and do not necessarily reflect the opinions of the journal.
  - The pieces of research are arranged according to the technical considerations which have nothing to do with the status of the researcher.
  - The reviewer or the researcher who is not known for the journal has to send on the journal email, a brief biographical note, his address and email, for the introductory and documentary purposes on the following email: kh@hrc.iq
  - Editorial board reserves the right to make the required amendments upon the approved pieces of research for publication.
- 
- 

## *The Publishing Terms*

- The journal should publish the scientific pieces of research that are related to the manuscripts and documents, reviewed texts, direct studies, and objective critical follow-ups which are related to it.
- The researcher should commit himself with the requisites of the scientific research and its rules in order to get benefit from its sources, and be within the frame of the Researchers 'style during discussion and criticism. Otherwise, the examined research or the text will contain certain topics that attempt to raise the feeling of sectarianism or even sensitivity towards any belief, ideology, or sect.
- The research should not be published previously or presented to other means of publication. The researcher is responsible for doing an independent commitment.
- The font should be in (Simplified Arabic). The texts printing size should be (16), and the margins printing size should be (12), and the pages number should not be less than (20).
- The reviewed research or text should be printed on the A4 type of paper in one copy with a CD. The pages should be numbered successively.
- The research should be presented with its Arabic and English abstracts, each in a separate paper including the title of the research.
- The familiar scientific principles, documentation and references should be taken into account. The documentation should include the name of the source, the number of the part and the page
- The research should be presented with a separate list of references including the title of the source, the name of the author, the name of the investigator or the interpreter if s/he is available, the publishing country name, the place of publication and finally the date of publication. The name of the books and pieces of research should be arranged alphabetically. And if there are foreign references, they should be added separately, i.e. not within the Arabic references
- Researches shall be subject to the scientific deduction program and to a con-
